Lieutenant General Vernon A. Walters, USA  
Deputy Director  
Central Intelligence Agency  
Washington, D. C. 20505

**25 JUN 1976**

Dear General Walters:

The Armed Forces Staff College is planning for its 60th Class which will begin on 16 August 1976. Your lecture, "The Role of the Intelligence Community in Support of National Strategy," has been scheduled for Thursday, 16 September 1976, and I was delighted to learn of your tentative acceptance. We certainly look forward to your return visit and your superb presentation.

As you are well aware, the scope of your presentation is left to your discretion; however, our students are particularly interested in your candid observations and personal insight concerning intelligence systems, their functions and management, as well as realistic approaches to day-to-day problems in the intelligence community.

As before, lectures begin at 1000 and last approximately 45 minutes. A 15-minute break then precedes a question period of about 45 minutes. I would be pleased if your schedule would permit you to remain for lunch with several students and faculty members.

We continue our strict nonattribution policy and you may be assured that your remarks will not be discussed outside the College. This permits a frank discussion of controversial issues and greatly enhances the learning experience of the student body.

Captain George D. Rush, III, USAF, of my Guest Speaker Office (Autovon 690-5422) will complete the arrangements for your visit.

I sincerely hope that you will be able to join us.

Very respectfully,

A handwritten signature in dark ink, appearing to read "Jerry", with a large loop at the start and a trailing flourish.

JEREMIAH A. DENTON, JR.  
Rear Admiral, USN  
Commandant
